

# DOOR COLLECTION

2025 - 2026

TOP CHOICE FOR INTERIOR DOORS

## THE FIRST DOOR

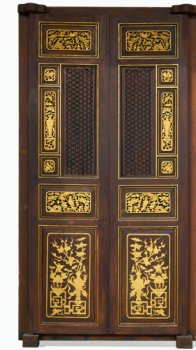

In the early days, when people left their nomadic lives to start settling down, they used stone, wood, and animal skins to cover caves, protecting themselves from wild animals and harsh weather.

Ancient Times

## APPEARANCE OF SOPHISTICATION

Doors in the Middle Ages were no longer simply shields. They were elaborately carved, made of wood, bronze, or stone, reflecting the culture and construction technology of this period.

Middle Ages

## PERIOD OF MATERIAL EXPLOSION

During the Industrial Revolution, thanks to the advent of steel, glass, cast iron, industrial wood and alloys, many sustainable and modern designs were created to meet the needs of many different purposes.

Industrial Revolution Period

## REBIRTH & DEVELOPMENT

During the Renaissance & Baroque periods, doors became a statement of power and art, made of oak, reinforced with wrought iron, carved with Gothic and Baroque motifs.

Renaissance & Baroque

## 21ST CENTURY – DEWOO DOOR CONTINUES THE JOURNEY TO THE FUTURE

New era, new trends! The door industry is constantly innovating towards more optimal values - durable, aesthetic and user-friendly.

DEWOO DOOR is a pioneer in bringing the Composite wood-plastic door line, inheriting traditional values combined with modern technology, opening a new era for living space.

Each DEWOO DOOR product is not just a door, but also a symbol of style, quality and timeless innovation.

DEWOO DOOR is a leading brand specializing in the manufacturing and supply of premium interior doors, operating with a state-of-the-art production system across three factories spanning a total area of 30,000 m<sup>2</sup>.

DEWOO DOOR delivers high-performance composite wood-plastic door solutions that offer durability, aesthetic appeal, and optimal functionality for every modern living space.

We are committed to crafting doors that not only open up spaces, but also unlock enhanced living values and long-lasting peace of mind for every project.

SPECIFICATIONS	DOOR TYPE	WIDTH	HEIGHT	MAXIMUM OVERSIZE
	Unequal Double Door	<1300mm	<2250mm	2200X2450mm
	Double Door	1010 - 1730mm	<2250mm	
		1731 - 1930mm	<2250mm	
	Single Sliding Door	<800mm	<2200mm	1050x2400mm
		800 - 900mm	<2200mm	
		901 - 1050mm	<2200mm	
	Single Door	<800mm	<2250mm	1140x2450mm
		800 - 900mm	<2250mm	
901 - 1080mm		<2250mm		

For heights exceeding the maximum, doors can be designed with a top fixed panel (except sliding doors).

# 2025 DOOR DESIGN TRENDS

Subtle decorative stripes create a gentle accent on light woodgrain backgrounds. The combination of moulding and glass creates a soft, refined appearance. Subtle CNC details beneath the surface add artistic depth and modern creativity. Bold CNC designs on black panels offer a modern and distinctive style.
